Karori Anglican Churches

For the year ended 31 December 2022

1. Reporting entity

The reporting entity is Karori Anglican Churches (the "Parish"). Karori Anglican Churches is an entity under the Parishes Canon of the Anglican Diocese of Wellington, domiciled in New Zealand and is a charitable organisation registered under the Charities Act 2005.

The consolidated financial statements comprising of Karori Anglican Churches and its controlled entities, together the "Group", are presented for the year ended 31 December 2022. The consolidated statements include Karori Anglican Churches, SMASH (St Mary's After School House), The St Mary's Early Childhood Education Centre, the Parochial Trust Board of Makara and Karori West, and the Karori Anglican Churches' Trust Board.

These consolidated financial statements have been approved and were authorised for issue by the Vestry Members

2. Statement of compliance

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ("NZ GAAP"). They comply with Public Benefit Entity International Public Sector Accounting Standards Reduced Disclosure Regime ("PBE IPSAS RDR") and other applicable financial reporting standards as appropriate that have been authorised for use by the External Reporting Board for Not-For-Profit entities. For the purposes of complying with NZ GAAP, the Parish and Group are public benefit not-for-profit entities and are eligible to apply PBE IPSAS RDR on the basis that the Group does not have public accountability and it is not defined as large.

The Vestry Members have elected to report in accordance with Tier 2 Not-For-Profit PBE Accounting Standards and in doing so has taken advantage of all applicable Reduced Disclosure Regime ("RDR") disclosure concessions except in application of PBE FRS 47 Paragraph RDR 27.1 to 27.3 which allows this Group to exclude comparatives from these financial statements, and PBE IPSAS 1 Paragraph 116.1 which provides concessions around disclosures of fees paid to auditors.

3. Summary of accounting policies

The significant accounting policies used in the preparation of these financial statements as set out below have been applied consistently to both years presented in these financial statements.

3.1 Basis of measurement

These financial statements have been prepared on the basis of historical cost as modified by fair value measurement of non derivative financial instruments. The financial statements are presented in New Zealand dollars which is the functional currency and has been rounded to the nearest dollar.

3.2 Basis of consolidation

Controlled entities are all those entities over which the controlling entity has the power to govern the financial and operating policies so as to benefit from its activities. The controlled entities are consolidated from the date on which control is transferred and are de-consolidated from the date that control ceases. In preparing the consolidated financial statements, all inter entity balances and transactions, and unrealised gains and losses arising within the consolidated entity are eliminated in full. The accounting policies of the controlled entity are consistent with the policies adopted by the Group and have a 31 December 2022 reporting date.

3.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Group and revenue can be reliably measured. Revenue is measured at the fair value of the consideration received. The following specific recognition criteria must be met before revenue is recognised.

Revenue from non-exchange transactions

Donations, offerings, givings and legacies

Donations are recognised as revenue upon receipt and include donations from the general public, donations received for specific program, legacies left to the Parish or Group, parish offerings or services or donations in-kind. Donations in-kind are recognised where fair value of the services can be reliably estimated. Donations in-kind are measured at their fair value as at the date of acquisition, ascertained by reference to the expected cost that would be otherwise incurred. Volunteer time is not recognised.

Karori Anglican Churches

For the year ended 31 December 2022

Where legacies or donations are received that contain conditions or restrictions on the use of funds which require the repayment of funds, the revenue is initially recorded as a liability and released to revenue as the conditions are met. Where the restrictions do not require a repayment of funds, Revenue is recognised upon receipt and recognised as a restricted reserve within net assets until such time as the funds are expended in line with its original restriction.

Grant Revenue

Grant revenue includes grants given by other charitable organisations, philanthropic organisations, government and businesses. Grant revenue is recognised when the conditions attached to the grant has been complied with. Where there are unfulfilled conditions attaching to the grant, the amount relating to the unfulfilled condition is recognised as a liability and released to revenue as the conditions are fulfilled.

Revenue from exchange transactions

Rental revenue

Rental revenue is recognised on a straight line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

ECEC and SMASH revenue

Revenue is recognised on an accrual basis in the period in which the services were provided.

Interest revenue

Interest revenue is recognised as it accrues, using the effective interest method.

Dividend revenue

Dividend revenue is recognised when the dividend is received.

Other revenue

All other revenue is accounted for on an accruals basis.

3.4 Cash and cash equivalents

Cash and cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.5 Short Term Investments

Short term investments comprise term deposits which have a term of greater than three months and therefore do not fall into the category of cash and cash equivalents.

3.6 Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. Where an asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Depreciation is charged on a straight line basis over the useful life of the asset, except for land which is not depreciated. Depreciation is charged at rates calculated to allocate the cost or valuation of the asset less any estimated residual value over its remaining useful life:

Buildings
 Computer equipment
 Furniture and Fittings
 General Equipment
 2-4 Years
 5-10 Years
 7-15 Years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and are adjusted if there is a change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset

Items in Work in Progress (WIP) are capitalised when completed. To date St Matthias repairs, ECEC/SMASH repairs, and Stage I of the Belltower have been largely completed and capitalised.

Karori Anglican Churches

For the year ended 31 December 2022

3.7 Income Tax

Due to its charitable status, the Group is exempt from income tax.

3.8 Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except for receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the Inland Revenue Department is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the Inland Revenue Department is classified as part of operating cash flows.

3.9 Equity

Equity is the community's interest in the Group, measured as the difference between total assets and total liabilities. Equity is made up of the following components:

Accumulated comprehensive revenue and expense

Accumulated comprehensive revenue and expense is the Group's accumulated surplus or deficit since its formation, adjusted for transfers to/from specific reserves.

Special projects reserve

This is a restricted equity reserve created by the Group for the purpose of financing special projects, such as capital replacement of certain significant assets. The use of these funds is restricted to the specific purpose of the projects.

Investment reserve

This reserve represents the gains or losses in investments held at each reporting date. Revaluations are initially recognised in the consolidated statement of comprehensive revenue and expenses and subsequently transferred to this reserve.

3.10 Financial Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

The Group derecognises a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when the rights to receive cash flows from the asset have expired or are waived, or the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either:

- the Group has transferred substantially all the risks and rewards of the asset; or
- the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Karori Anglican Churches For the year ended 31 December 2022

Financial Assets

Financial assets within the scope of NFP PBE IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets. The classifications of the financial assets are determined at initial recognition.

The categorisation determines subsequent measurement and whether any resulting revenue and expense is recognised in surplus or deficit or in other comprehensive revenue and expenses. The Group's financial assets are classified as loans and receivables and fair value through profit and loss. The Group's financial assets include: cash and cash equivalents, receivables from non-exchange transactions, receivables from exchange transactions and investments.

All financial assets except those at fair value through surplus or deficit are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less any allowance for impairment. The Group's cash and cash equivalents, short-term investments, receivables from non-exchange transactions, receivables from exchange transactions and non-equity investments fall into this category of financial instruments.

Financial assets at fair value through surplus or deficit

Financial assets at fair value through surplus or deficit include items that are either classified as held for trading or that meet certain conditions and are designated at fair value through surplus or deficit upon initial recognition. The Group's investments fall into this category of financial instruments.

Impairment of financial assets

The Group assesses at the end of reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

For financial assets carried at amortised cost, if there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the surplus or deficit for the reporting period.

Financial Liabilities

The Group's financial liabilities include trade and other creditors (excluding GST and PAYE), employee entitlements and deferred revenue (in respect to agreements whose conditions are yet to be complied with).

All financial liabilities are initially recognised at fair value (plus transaction cost for financial liabilities not at fair value through surplus or deficit) and are measured subsequently at amortised cost using the effective interest method except for financial liabilities at fair value through surplus or deficit.

3.11 Employee Benefits

Liabilities for wages and salaries and annual leave are recognised in surplus or deficit during the period in which the employee provided the related services. Liabilities for the associated benefits are measured at the amounts expected to be paid when the liabilities are settled.

Karori Anglican Churches For the year ended 31 December 2022

4. Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the accounting policies management have not made any significant judgements within the financial statements.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to determine potential future use and value from disposal:

- The condition of the asset
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes
- · The nature of the processes in which the asset is deployed
- Availability of funding to replace the asset
- Changes in the market in relation to the asset

Karori Anglican Churches For the year ended 31 December 2022

Notes

1. The Trust owned the St Philips site in trust for the Parish of Karori, which is the successor to the Parish of Makara and Karori West.

The St Philips site was sold in 2010, and the purchaser paid in full during 2012

The Trust sold land at Makara in May 2012

Basis of Preparation

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand in accordance with the External Reporting Board's Financial Reporting Standards. They comply with Public Benefit Entity international Public Sector Accounting Standards ("PBE IPSAS") and other applicable financial reporting standards as appropriate that have been authorised for use by the External Reporting Board for Not-For-Profit entities. For the purposes of complying with NZ GAAP, the Trust is a public benefit not-for-profit entity and is eligible to apply Tier 2 Not-For-Profit PBE IPSAS on the basis that it does not have public accountability and it is not defined as large. Transition date was 1 January 2015.

These financial statements are prepared for the year ended 31st December 2022 on an accrual basis. They are presented in New Zealand Dollars.

The Trust has elected to report in accordance with Tier 2 Not-for-Profit PBE Accounting Standards in order to align itself with the reporting requirements of Karori Anglican Churches. It has taken all Reduced Disclosure Regime ("RDR") disclosure concessions applicable.

1. NATURE OF THE CENTRE

The financial statements presented are for the separate reporting entity St Mary's Early Childhood Education Centre (the "Centre"). The Centre is a separate autonomous unincorporated activity under the control of Karori Anglican Churches and therefore also The Anglican Diocese of Wellington. The Centre is managed by a Management Team whose members are ratified by the Vestry of Karori Anglican Churches. These general purpose financial statements of the Centre have been compiled separately to provide financial information for the Church, Centre families and the Ministry of Education. Financial statements of the full economic, legal entity, Karori Anglican Churches, are separately prepared.

The reporting period of these financial statements is the year ended 31 December 2022.

2. STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ("NZ GAAP"). They comply with Public Benefit Entity International Public Sector Accounting Standards (PBE IPSAS) and other applicable financial reporting standards as appropriate that have been authorised for use by the External Reporting board for Not-For-Profit entities. For the purpose of complying with NZ GAAP, the Centre is a public benefit not-for-profit entity and is eligible to apply Tier 2 Not-For-Profit PBE IPSAS on the basis that it does not have public accountability and it is not defined as large.

The Centre has elected to report in accordance with Tier 2 Not-For-Profit PBE IPSAS in order to align its financial reporting process with the Karori Anglican Churches and in so doing has taken advantage of all applicable Reduced Disclosure Regime (RDR) concessions.

3. SUMMARY OF FINANCIAL POLICIES

The significant accounting policies used in the preparation of these financial statements as set out below have been applied consistently to both years presented here.

Basis of measurement

The accounting principles recognised as appropriate for the measurement and reporting of Financial Performance and Financial Position on an historical cost basis are followed by the Centre.

Presentation Currency

The financial statements are presented in New Zealand dollars. All numbers presented have been rounded to the nearest dollar unless otherwise stated.

Revenue

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Centre and revenue can be reliably measured. Revenue is measured at the fair value of the consideration received. The following specific recognition criteria must be met before revenue is recognised.

Revenue from non-exchange transactions

Grant Revenue

Grant revenue includes grants given by other charitable organisations, philanthropic organisations and businesses. Grant revenue is recognised when the conditions attached to the grant have been complied with.

Bulk Funding received from the Ministry of Education is recognised on an accrual basis in the period for which the services are provided. Bulk Funding received in advance for the following financial year is recorded as income in advance.

Revenue from exchange transactions

Fundraising

Income from donations is recognised in the financial statements upon receipt of funds as this is when the revenue is measurable and within the control of the Centre.

Fee Income

Fees received are recognised on an accrual basis in the period for which the services are provided. Fees received in advance for the following year are recorded as income in advance.

Interest Income

Interest is recognised as it accrues, using the effective interest method.

Financial assets and financial liabilities are recognised when the Centre becomes a party to the contractual provisions of the financial instrument. The Centre derecognises a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when the rights to receive cash flows from the asset have expired or are waived, or the Centre has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either:

- the Centre has transferred substantially all the risks and rewards of the asset; or
- * the Centre has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial Assets

Financial assets within the scope of NFP PBE IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets. The classifications of the financial assets are determined at initial recognition.

The categorisation determines subsequent measurement and whether any resulting revenue and expense is recognised in surplus or deficit or in other comprehensive revenue and expenses. The Centre's financial assets are classified as loans and receivables. The Centre's financial assets include: cash and cash equivalents, short-term investments, receivables from non-exchange transactions, and receivables from exchange transactions.

All financial assets are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less any allowance for impairment. The Centre's cash and cash equivalents, short-term investments, receivables from non-exchange transactions, receivables from exchange transactions and non-equity investments fall into this category of financial instruments.

Impairment of financial assets

The Centre assesses at the end of reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of the financial asset or the group of financial assets that can be reliably estimated.

For financial assets carried at amortised cost, if there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the surplus or deficit for the reporting period.

In determining whether there is any objective evidence of impairment, the Centre first assesses whether there is objective evidence of impairment of financial assets that are individually significant, and individually or collectively significant for financial assets that are not individually significant. If the Centre determines that there is no objective evidence of impairment for an individually assessed financial asset, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment for impairment.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. If the reversal results in the carrying amount exceeding its amortised cost, the amount of the reversal is recognised in surplus or deficit.

Financial liabilities

The Centre's financial liabilities include trade and other creditors (excluding GST and PAYE), employee entitlements, and deferred revenue (in respect to grants whose conditions are yet to be complied with). All financial liabilities are initially recognised at fair value and are measured subsequently at amortised cost using the effective interest method.

Taxation

The Centre is registered under the Charities Act 2005, under the umbrella of the Anglican Church in Aotearoa, and is therefore exempt from income tax. As such no provision has been made for current or deferred tax under sections CW41 and CW42 of the Income Tax Act 2007.

Goods and Services Taxes

The statement of financial performance has been prepared on a GST exclusive basis, except accounts receivable and accounts payable which are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the Inland Revenue is included as part of receivables or payables in the statement of financial position.

Cash and cash equivalents

Cash and cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Fixed Assets

Fixed Assets are stated at cost less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the asset. Where an asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Depreciation

Depreciation is charged on all assets over their useful economic lives. The following rates have been used:

Building Renovations 4-10% straight line
Equipment 20% straight line
Furniture & Fittings 10% straight line
Office Equipment & Software 40% straight line
Playground 8.5% straight line

Plant

The premises used by the Centre are made available through a licence to occupy contractual agreement between Karori Anglican Churches and the Centre. The Centre maintains the property to the standards agreed under this contract. Major repairs and building upgrades are undertaken by Karori Anglican Churches. The Centre may provide funds towards these projects. These are not recognised as assets in the accounts of the Centre.

Employee benefits

Liabilities for wages and salaries, and annual leave are recognised in surplus or deficit during the period in which the employee provided the related services. Liabilities for the associated benefits are measured at the amounts expected to be paid when the liabilities are settled.

Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

There are no significant judgements, estimates or assumptions within the financial statements.

Deferred Revenue (conditions attached)	43,420	61,888
	108,330	120,752

7. CHANGES IN ACCOUNTING POLICIES

There have been no material changes in the accounting policies applied during the period covered by the financial statements.

8. RELATED PARTY TRANSACTIONS

The Centre is a controlled entity within the Anglican Diocese of Wellington. Premises rents of \$44,800 and Management Fee of \$9,360 (2020: \$43,911 and \$9,180) are paid to Karori Anglican Churches for the 2021 year. Contribution to KAC of \$50,000 (2021: \$15,000) There are no other significant transactions with group parishes, Church Ministry Units or Board members that require disclosure.

Key Management Personnel

The key management personnel as defined by PBE IPSAS 20 Related Party Disclosures consists only of the Head Teacher employed during the year Total remuneration paid was as follows:

 Centre 2022
 Centre 2021

 Total Remuneration
 \$89,834
 \$88,246

 Number of Persons
 1
 1

9. COVID 19 SUMMARY

The impact of the COVID-19 pandemic and the ensuing government imposed restrictions and payments were moderate, namely:

- During 2022 some staff and some children contracted Covid, but the effect on operations was minimal
 - Comparison with previous year:
- A two-week closure during September 2021 during which staff remained on full pay, parent fee income ceased and the Ministry of Eduction continued to pay bulk funding
- Receipt of a wages subsidy of \$11,036
- A quick pick up in the roll when restrictions were lifted.
- A heightened awareness of the risk of infections and need to ask parents to keep unwell children at home.

10. CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES

There are no capital commitments or contingent liabilities at the reporting date (2021: None).

11. EVENTS AFTER THE REPORTING DATE

There have been no adjusting or non-adjusting events that have occurred since the reporting date. aside from GST overpaid to IRD during 2022 totalling \$7,600. It is anticipated that this will be recoverable with the February GST return.

The SMASH Club (St Mary's After School House)

Note 1: Statement of Accounting Policies

Reporting Entity

The financial statements presented are for the separate reporting entity The SMASH Club ("Club") which is part of the outreach ministry of Karori Anglican Churches. The Club is managed by a Management Committee whose members are ratified by the Vestry of Karori Anglican Churches. Karori Anglican Churches controls The Club.

These financial statements of the Club have been compiled separately to provide financial information for parishioners, families who use the Club and funders who provide grants to the entity. Financial statements of the full economic, legal entity, Karori Anglican Churches, are separately prepared.

Basis of Preparation

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand in accordance with the External Reporting Board's Financial Reporting Standards. They comply with Public Benefit Entity international Public Sector Accounting Standards ("PBE IPSAS") and other applicable financial reporting standards as appropriate that have been authorised for use by the External Reporting Board for Not-For-Profit entities. For the purposes of complying with NZ GAAP, the Club is a public benefit not-for-profit entity and is eligible to apply Tier 2 Not-For-Profit PBE IPSAS on the basis that it does not have public accountability and it is not defined as large. Transition date was 1 January 2015.

These financial statements are prepared for the year ended 31 December 2022 on an accrual basis. They are prepared on the assumption that the Club is a going concern. The financial statements are presented in New Zealand Dollars, rounded to the nearest dollar.

The club has elected to report in accordance with Tier 2 Not-for-Profit PBE Accounting Standards in order to align itself with the reporting requirements of Karori Anglican Churches. It has taken all Reduced Disclosure Regime ("RDR") disclosure concessions applicable.

Measurement Base

The measurement system adopted is historical cost.

Specific Accounting Policies

Income recognition

Grants (Revenue from non-exchange Transactions)

Grants received from the Ministry of Social Development towards operating costs are accounted for in the period specified in the grant contract, or when expenditure is incurred. Grants received before the grant period are recognised as income in advance.

Fees (Exchange Transactions)

Fees received from parents are recognised on an accrual basis in the period for which the services are provided. Fees received in advance for the following financial year are recorded as income in advance. *Interest*

Interest is recognised on an accrual basis.

Goods and Services Tax

The SMASH Club is registered on a Payments basis for GST. All items in the financial statements are stated exclusive of GST except for receivables and payables, which are stated on a GST inclusive basis. Where GST is not recoverable as input tax then it is recognised as part of the related asset or expense. The net amount of GST recoverable from, or payable to Inland Revenue is included as part of receivables or payables in the Statement of Financial Position.

Ta

The Club is registered under the Charities Act 2005, under the umbrella of the Anglican Church in Aotearoa, and has been granted exemption from Income Tax. As such no provision has been made for current or deferred tax under sections CW41 and CW42 of the Income Tax Act 2007.

Fixed Assets

Initial Recognition

Plant and equipment purchased for use by the Club that costs over \$500 is capitalised. Assets are stated at cost, less accumulated depreciation and any impairment losses. The cost of plant and equipment is generally the purchase cost, together with any incidental costs of acquisition.

Subsequent Costs

Subsequent Costs are included in an asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits or service potential associated with them will flow to the entity and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the statement of financial performance during the financial period in which they are incurred.

Impairment of plant and equipment

Plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Depreciation

Plant and equipment is depreciated on a straight-line basis as follows:

Office Equipment	
Computers & Software	36%
Equipment	
Printer	36%
Furniture & Cupboards	10%
Vacuum Cleaner	33%
Whiteware	20-21.6%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Employee Entitlements

Employee benefits that the entity expects to be settled within 12 months of the reporting date are measured at nominal values based on accrued entitlements at current rates of pay. These include salaries and wages accrued up to the reporting date, and annual leave earned to, but not yet taken at the reporting date

Financial Instruments

Financial assets and financial liabilities are recognised when the Club becomes a party to the contracted provisions of the financial instrument.

The Club derecognises a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when the rights to receive cash flows from the asset have expired or are waived, or the Club has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party, and either:

- the Club has transferred substantially all the risks and rewards of the asset, or
- the Club has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial Assets

Financial assets within the scope of NFP PBE IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets. The classification of the financial assets are determined at initial recognition.

The categorisation determines subsequent measurement and whether any resulting revenue and expense is recognised in surplus or deficit or in other comprehensive revenue and expenses. The Club's financial assets are classified as loans and receivables. The Club's financial assets include: cash and cash equivalents, short-term investments, and receivables from exchange transactions. All financial assets are subject to review for impairment at least each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets.

Impairment of Financial Assets

The Club assesses at the end of reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and

impairment losses are incurred if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

For financial assets carried at amortised cost, if there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the surplus or deficit for the reporting period.

In determining whether there is any objective evidence of impairment, the Club first assesses whether there is objective evidence of impairment of financial assets that are individually significant, and individually or collectively significant for financial assets that are not individually significant. If the Club determines that there is no objective evidence of impairment for any individually assessed financial asset, it includes the asset in a group of financial assets with wimilar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment for impairment.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. If the reversal results in the carrying amount exceeding its amortised cost, the amount of the reversal is recognised in surplus or deficit.

Financial Liabilities

The Club's financial liabilities include trade and payables (excluding GST & PAYE), employee entitlements, and deferred revenue (in respect to grants whose conditions are yet to be complied with). All financial liabilities are initially recognised at fair value (plus transaction cost for financial liabilities not at fair value through surplus or deficit) and are measured subsequently at amortised cost using the effective interest method.

Cash and Cash equivalents

Cash and Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Plant and Equipment

The premises used by the Club are made available through a license to occupy contractual agreement between Karori Anglican Churches and the Club. The Club maintains the property to the standard agreed under this contract. Major repairs and building upgrades are undertaken by Karori Anglican Churches. The Club may provide funds towards these projects. These are not recognised as assets in the accounts of the

No. 7 .		35,734	25,336

Note 7: Leased Assets

There were no leased assets in 2022 (2021: nil)

Note 8: Capital Commitments and Contingent Liabilities

The premises occupied by the Club until December 2013 comprised the St Mary's Hall facilities which are owned by Karori Anglican Churches (KAC) and leased to the Club under a "Licence to Occupy". As a result of a seismic review of all KAC buildings, the St Mary's Hall premises have been demolished. KAC allows the Church building to be used by the Club while the new facility is built.

The club has paid \$20,000 for fit-out of the new building and will pay \$5,000 towards a remodel of the Church in 2023 to KAC. The club has no other capital commitment or contingent liability as at 31 December 2022.

Note 9: Related Party Transactions

The Club is a controlled entity within The Anglican Diocese of Wellington. Premises rent of \$12,480 (2021: \$12,240) for the year was paid to Karori Anglican Churches. A \$20,000 capital contributions to KAC was made in 2022 (2021: nil). There are no other significant transactions with group parishes, church ministry units or Management Committee members that require disclosure.

Key Management personnel:

Key management personnel, as defined by PBE IPSAS 20 Related Party Disclosures, is the Manager of SMASH. Until September 2022, This was Tabatha Longa-Wood. From September, this was Yvette Michalska

2022, This was Tabatha Longa-	Wood. From September, this	was Yvette Michalek
Total Remuneration	2022	2021
Number of persons	79,794	65,552
Minor remuneration was	1	1

Minor remuneration was provided by SMASH to employees who are close family members of key management

Note 10: Subsequent Events

The Club does not have any subsequent events that require disclosure (2021: none)

Note 11: COVID-19

The impacts of the COVID-19 pandemic were relatively insignificant during 2022. \$8,262 was received as Covid Subsidy during the year (2021: \$31,725).
